ACCESSORIES

"I'm in LOVE with my new silk top human hair topper. I haven't felt this confident in years. I've always had fine and thin hair since I was a little girl, but I quickly started losing hair (due to stress) after my son was diagnosed with severe autism and an intellectual disability. I'm so thankful to have found Uniwigs. I'm wearing Megan in the color Almond Frost. This topper is super comfortable and it comes with the halo wire, a total game changer. Plus, you can't beat the price compared to other retailers. Thanks UniWigs for giving me my confidence back."

CUSTOMER TESTIMONIAS

"It is amazing what a good hair day can do for your mood. I was really happy with how my hair looked yesterday and it showed for sure. Even my husband commented that I was "feelin' it." LOL. This is the Melanie topper (I need to do a review of that one for you ladies!) and I added texture with large waves using a 1.5" curling wand. It gave the hair lots of great, natural movement."

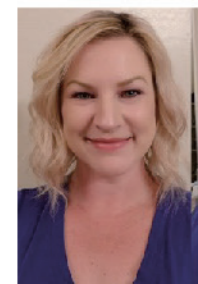

Julia

Product: Melanie Human Hair Topper, 8.5"x9" Base

"When my Claire Topper arrived, I was surprised how much the human hair topper felt like my own. Since the topper came longer than my hair, I wanted to have it cut so it would blend with my natural hairstyle. The first thing my stylist did was trim the back of my natural hair. Then he clipped the topper in and began his magic. Although I have a lot of hair, it's super fine. A topper is a wonderful product if you are losing hair or just want to thicken up your own. When my stylist was finished, I felt like a million bucks. I felt so glamorous that hubby had to take me out on the town! Thank you Uniwigs for a great experience, and a very special thanks to my stylist Patrick."

Cheryl

Product: Claire Human Hair Topper, 5.5"x5.5" Base

"I have always had fine hair but after starting a new medication my hair became even more thin and fragile. This Claire Hair Topper matched my hair perfectly. It is so easy to style and put in and most importantly, comfortable. When I tell friends it's not my real hair they're shocked! I'm looking forward to buying my next topper."
