UniWigs is more than just a brand, it's a community built on empowerment and self-expression.

This is the first wig I've bought that I feel looks natural on me. I usually wear toppers because they seem to look the most realistic on me but I wanted to try something for days that I don't want to bother with trying to blend my biohair with my topper,, and this wig is IT!! I haven't washed her yet but the I'm loving the low density. I wish there were more low density options out there. Highly recommend this wig especially for the price!

Victoria is wearing **Jade** TopComfort CapRemy Human Hair Lace Top Wig.

LOVE this beautiful heat friendly synthetic! The style is gorgeous and the color is so complimentary. I love the shading around the face as it really highlights the dimension in the color of this wig. The hairline is incredibly natural with VERY little work. When I took it out of the package, I ran my airbrush through the roots to give it a bit of extra oomf and then added some face framing layers (as is my preference); but it was very little customization work to make this wig exactly perfect! If you are in the market for a beautiful heat friendly synthetic - this is your girl!

Carlyn is wearing **Abigail** Synthetic Lace Front Wig.

The Collins wig is so beautiful and also affordable! I've worn this for a full day at work with little to no tangles at the nape. I think this wig will be a strong contender in my everyday wigdrobe!

Jennifer is wearing **Collins** Synthetic Lace Front Wig.

Love this wig! It's hard to find nicely colored blonde wigs and I've finally found it! Super comfortable, lightweight, and looks very real and easy to put on. I'm a big fan of uniwigs all my favorite wigs are through them! Also, this is a great price for high-quality and long hair!

Emily is wearing **Carina** Remy Human Hair Wig.

I absolutely love my Charlotte wig! It is light and comfortable and looks very natural! I feel great when I wear it and I've received many compliments already! It is easy to style, as well! I would highly recommend this gorgeous wig!

Laura is wearing **Charlotte** Remy Human Hair Wig.

Years upon years of wearing improperly installed extensions and super tight ponytails finally made my follicles let go and give up. The thing that a lot of people don't know is that alopecia can be permanent and for me it is. The one thing that I have learned regarding beauty and working in the industry for 14 years, however, is that we need to stop letting our flaws define our worth. In today's world, there is a solution or an aesthetic fix for every problem. We don't have to let it consume us. If you have something that bothers you a lot, look to the professionals to help you brainstorm a way to hide or potentially even solve it. We are all beautiful women and we are all in this together helping to lift each other up!

Gabi is wearing **Perfection** Remy Human Hair Lace Wig.

This is my first synthetic wig purchase! The color is absolutely beautiful. I did customize it a bit, shortened it, and thinned it out a tad. The cap is really comfy and the hair is silky. I love that it is heat tolerant.

Patricia is wearing **Blondie** Synthetic Lace Front Wig.
